Re: Test results - Exposure limits of solvent vapors.

Dear Mr. Albrecht:

We wish to thank you for informing us of the results of the tests performed on our employees during your April visit. I'm sure the employees will be happy to know that we are well within the standards for exposure limits of solvent vapors as set forth by the American Conference of Industrial Hygienists, OSHA, and NIOSH.

We are looking forward to receiving the written reports which you said we could expect during the week of July 28th.

Regarding the clean-up operation, we feel it is progressing well. We are continuing the removal and restacking of the drums on the property, as you suggested.

Yours truly,

James C. Freeman, Pres.
